INVITATION

The FACTS4WORKERS project is a 4-year European research project funded by Horizon 2020 Framework Research Programme. The FACTS4WORKERS consortium developed IT Smart Factory solutions to enable better working conditions for European shop floor workers and help introduce into the European industry new workplaces designed in accordance with Industry 4.0. guidelines.

The closing event presents the advanced prototype solutions developed within FACTS4WORKERS for a wide array of use-cases from various European industries and new project opportunities that arose from this research effort.

PRELIMINARY AGENDA

- 9:30 Welcome
- 10:00 Introduction into results of FACTS4WORKERS, Key Achievements and Findings
- 11:30 Selected Prototypes (World Café) Part 1
- 12:30 Lunch Break, Prototype Discussions and Networking
- 13:30 Selected Prototypes (World Café) Part 2
- 14:00 Introductions of other cluster projects FoF
- 15:30 Discussions on further collaborations
- 16:30 End of meeting, Farewell

This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement n° 636778.
